

THE BLAIRMORE ENTERPRISE

VOL. XIII. NO. 38.

BLAIRMORE, ALBERTA. THURSDAY, SEPTEMBER 21, 1922.

\$2.00 YEARLY

BLAIRMORE TO HAVE

IRON WORKS

The Calgary Riverside Iron Works Co. has decided on establishing a branch works in Blairmore and a gang of men and teams are already busy clearing the ground.

The site is near the Greenhill tipple, on the old athletic grounds.

Tenders for the erection of buildings are being called for and work of construction will proceed immediately.

A tea and sale of home-made jam, preserves and pickles will be held at the home of Mrs. F. M. Pinkney, West Blairmore, on Friday of next week at 3 p.m., proceeds to go to the Union Church building fund.

J. P. O'Nill is due to arrive back from Ontario on Monday next.

Electric Range Demonstration

There will be a demonstration of McClary's ELECTRIC RANGES in our show window every day next week except Saturday. The demonstration will be in charge of a special representative of the McClary Manufacturing Company, and he will also feature their COAL RANGES AND HEATERS. Even if you are not in the market to buy, you will be cordially welcome at this demonstration.

Blairmore Hardware Co.

BLAIRMORE, ALBERTA

SALE AND TEA FINE NEW RESIDENCE IS COMPLETED

Another residence was given the finishing touches on Saturday last, and is located on Fifth Avenue South. The new house is to be the home of Mr. and Mrs. T. Foline, shoemaker, and is one of the neatest in town.

The new house contains six large rooms, is equipped modernly and beautifully located. Exterirorly the house is coated with stucco and is plastered throughout within.

REV. THOMAS POWELL AT THE UNION CHURCH

Elemental discourses were delivered by Rev. Thomas Powell at the Union church on Sunday last.

In the morning of 11, a special young people's service was held. The church was filled to overflowing with young folks and their parents and friends. Mr. Powell took as his subject, "What does a boy or girl cost?" and delivered a message that could not leave an impression for good with the young folks.

For the evening service the church was crowded. Mr. Powell dealt in a forcible manner with the subject of "Stewardship."

All who attended the services on Sunday felt well repaid.

THE CRAHAN CUP FINAL

Don't miss the final football fixture, Blairmore versus Michel, for the Cran Cup, to be played on Hillcrest grounds on Saturday evening.

This is to be a real humdinger of a game and all kinds of accommodation will be provided for rooting.

Come out in your hundreds and root the Blairmore boys to victory.

BOARD OF TRADE LUNCHEON TONIGHT

The local Board of Trade will hold their second luncheon tonight at the new Greenhill Grill at 7.30 o'clock.

All members and anyone wishing to join are requested to be present.

NEW L. O. O. F. HALL

T TO OPEN MONDAY

The new home for Bellevue Oddfellows will be formally opened on Monday night next and invitations have been extended to the members of neighboring lodges to be present for the ceremony.

The new hall is one of the most beautiful in the province and is designed to meet all the requirements of the various lodges and other institutions that will make use of it. The building is nicely located and a single story, built of solid brick and tile. The side walls are without windows, light being supplied only through skylights and end windows. The outside represents in the neighbourhood of thirteen thousand dollars.

Bellevue Lodge was instituted about ten years ago, and in its younger days met in a hall owned by J. M. Barnett and occupied jointly by the Masons and Oddfellows. This home was destroyed by fire about three years after the institution of the Lodge and all paraphernalia and effects were consumed.

The Lodge was handicapped for over a year for want of a suitable meeting place and the Methodist church basement was temporarily arranged for the purpose, but proved altogether inadequate.

About six years ago a company of Oddfellows was formed and funds raised for the purchase of a lot and two-storey building from Haddad Bros. The ground floor was rented as a pool hall and barber shop, while the upstairs was laid out as a meeting place. This hall was well appointed, having, in addition, to the main hall and ante-rooms, a kitchen and equipment. The hall was floored with hardwood and was one of the best ballrooms in the district. Here Bellevue Lodge progressed and made great strides, later to be augmented by auxiliary bodies in the Rebekah and Encampment branches. Fire last year destroyed this building and the above-named lodges were rendered homeless.

Several months ago, it was decided to rebuild and the present structure is the result.

We are unable to obtain a list of the programme for Monday night, but presume that official representatives of the Grand Lodge and Rebekah Assembly of Alberta will be present.

DEATH OF MRS. VAN ALLAN

The news of the death of Mrs. George H. Van Allan, which occurred suddenly at Edmonton on Monday night, comes as a shock to all through this district who had the pleasure of knowing her.

Mrs. Van Allan was formerly Miss Dixie McMillan, daughter of Hugh McMillan, genial proprietor of the Cawley hotel. She was widely known and very popular, during her few years residence in Edmonton won a prominent place in society.

BLAIRMORE SECOND-HAND STORE, CHANGES HANDS

A deal was put through here the early part of the week, whereby the business known as The Blairmore Exchange, conducted by Gresham & Comfort, changed hands, the purchaser being a Mr. King, of Calgary.

We understand that Mr. King will carry on the same line of business, viz: buying and selling second-hand furniture, stoves, etc.

SHILLIE—BLAIRMORE

A very pretty wedding took place at the First Unitarian Church, Coleman, last evening, the contracting parties being Mr. William H. Milley and Miss Muir, both very well known and popular.

The ceremony was performed by the pastor, Rev. D. K. Allan, and was witnessed by a large number of friends.

After a brief honeymoon trip, the young couple will take up residence in Coleman, where hosts of well-wishers will attend them.

The shooting season for Hun-
ting and trapping opens on October
the 1st.

The decision of Judge Gresham in the case against two local youths who appeared before him last week and to answer the charge of not settling for a luncheon obtained from a local restaurant, should serve as a warning to others who may at times feel it their pleasure to take advantage of the Orientals.

The two youths on this occasion were required to dig up a small fine, were subjected to six months' suspended sentence and bound over to keep the peace for one year.

George H. Soward, of the Col-
man Hardware Co., was in town
yesterday.

Convert Your Victory Bonds

The Minister of Finance offers to holders of Canada's Victory Bonds issued in 1917 and maturing December 1, 1922, the privilege of exchanging the maturing bonds for new bonds, bearing 5 1/4 per cent. interest and maturing in 5 or 10 years. A bonus of a full month's interest will be given to those who avail themselves of the conversion privilege not later than September 30.

WE WILL ARRANGE TO CONVERT YOUR BONDS WITHOUT CHARGE

splendid

National Land Settlement

To all new countries immigration is a matter of vital national importance, just as emigration becomes a matter of individual and national necessity in older countries with teeming populations and a restricted land area.

For many years the United States was the chief market for landless European emigrant, and the present population of more than one hundred million which the United States can boast is the direct result of the enormous influx of people to that new land. Within the comparatively brief period of four or five generations the United States has grown from a sparsely settled frontier into one of the most populous, highly organized and wealthiest nations in the world.

It no longer offers great inducements to the poor man in Europe who is forced by stress of circumstances at home to seek a new land.

The British Empire has generally recognized some years before the Great War, and in the ten or fifteen years prior to the war the stream of European emigration was increasingly being diverted to the unsettled land areas of Canada.

The population of Western Canada increased by leaps and bounds, millions of acres of land were opened up and great colonization schemes actively assisted in directing tens of thousands of settlers in this country, villages grew into towns, and towns into cities almost overnight, production increased amazingly, thousands of miles of railways were built, and the whole industry of the Dominion was made prosperous.

The outbreak of the Great War put an abrupt and complete stop to all European emigration, while the exhaustion of free homestead lands and the final disposal of those large blocks of lands controlled by the colonial companies only served to increase the pressure on the United States.

Since 1914, therefore, Canadian immigration has been at a low ebb, notwithstanding the great wealth of virgin natural resources.

Since the Great War, there has been a strong and growing opinion that Canada must wake up and endeavor to renew the stream of immigration which was bringing life and prosperity to this country before the war. At the same time it was realized that after-war problems calling for solution made it imperative that such immigrants as were admitted to Canada must be of a type which would be acceptable to the Dominion and not add to the problems with which the country was confronted.

The situation now is that the population of Great Britain is growing more rapidly than Canada, and with the need of large areas of land for the Overseas Settlement Department, at the present time, immigration to the Overseas Dominions of Canada, Australia, New Zealand and South Africa. It is agreed that a part of Canadian immigration is to scientifically direct the people of the British Isles to settle in the Dominions and to make a large number of sturdy British settlers may be settled in the Dominions under conditions guaranteeing reasonable prospects of making a success in life.

Some time ago, Australia announced their scheme, and for some months past the British Government has been engaged in a similar scheme in the Dominion. In the meantime and for some months past, the Dominion Government has been studying the whole problem of immigration in its relation to Canada's needs and its best interests. A special committee of the Federal Council of the Canadian Patriotic Government, and in co-operation with the Canadian Immigration Service, has been engaged in a study of the number of sturdy British settlers which may be settled in the Dominions under conditions guaranteeing reasonable prospects of making a success in life.

Some time ago, Australia announced their scheme, and for some months past the British Government has been engaged in a similar scheme in the Dominion. In the meantime and for some months past, the Dominion Government has been studying the whole problem of immigration in its relation to Canada's needs and its best interests. A special committee of the Federal Council of the Canadian Patriotic Government, and in co-operation with the Canadian Immigration Service, has been engaged in a study of the number of sturdy British settlers which may be settled in the Dominions under conditions guaranteeing reasonable prospects of making a success in life.

The result of this intensive and expert study of the problem is found in the report made recently by Hon. Charles Stewart, Minister of Immigration and Colonization, of the immigration policy of the Government, and to which immediate effect is to be given.

Inasmuch as the carrying out of a successful immigration and land settlement plan is of the utmost importance to every resident of Western Canada, and to every resident of Western Canada, and furthermore as the assistance of every individual citizen is of prime importance in order to achieve the best results, some attention to the plan evolved will be given in a subsequent article.

Prince Has Heavy Mail

Three Secretaries Attend to Letters
Delivered to York House

The Prince of Wales normally receives about seven hundred letters a day, though there have been occasions when the contents of the mail delayed to York House in the day contained well over fifteen hundred letters.

A couple of weeks before the Prince

started on his Indian tour, 2,000 letters a day were delivered to his Royal Highness. The compiler of the Prince's establishment, assisted by three secretaries, attends to the Prince's letters, the compiler bringing under the Prince's notice communications which he thinks require the personal attention of his Royal Highness. —Trib.

Mystery Is Solved

Chinese Laundry Ticket Is Nothing
But a Number

The Chinese laundry ticket is a simple thing when one understands the system. According to the very polite boss of some sixteen younger and husker Chinese, a business man had, it is probable, retired from heavy labor and now gets little exercise. He likes to iron, the Oriental ideograph which is torn in two is no description of the person who has left laundry or any other interesting thing. He says that in his establishment nothing but a number is written in Chinese. —New York Sun.

Cocaine Cultivated in Java
Cocaine first obtained recognition as a valuable medicinal drug about thirty-five years ago, and the commercial supply was derived from leaves of the wild coca plant native to Peru. Now, however, the shrub is cultivated on an extensive scale in Java, which will export this year about 4,500,000 pounds of the leaves.

Keep Minard's Liniment in the house

Shelter For Machinery

Your Farm Machinery Is Certainly
Worth Protecting

An inexpensive shelter can be erected by using a few uprights with a roof of lap lumber, rubberoid or even straw. In many places there are plenty of trees to supply uprights. The back and two ends can be finished in rough lumber or, lacking this, in woven wire packed with straw. The shed should be deep and low enough to allow the machinery to enter in front, in a sheltered place, or away from the prevailing drifts. A little seasonal paint on the woodwork and even on the metal of the machinery saves its value many times over, while a touch of oil or grease upon the valves and friction portions is like the switch in time that saves the nine.

Keeping the machinery under cover undoubtedly prolongs its life. Moreover, during the busy season it is a saving of valuable time to find it in good running order, bolts and chain links in place, and sprockets and gears not needing those minor repairs that mean many times their value in critical moments saved.

EVERY WOMAN IN POOR HEALTH

Has an awful struggle
Lots to do;
all kinds of worry, poor appetite, headaches, weakness. Her desire is to have a good, strong, healthy baby. What sickly womb out women need is a cleansing, blood purifying remedy like Dr. Hamilton's Pills. This wonderful medicine cleans out the wastes from the system, regulates the blood, helps the blood. To look your best, to feel fit and fine all day, to be free from headache and headache, use Dr. Hamilton's Pills. Write to Dr. Hamilton's, The Cataractozone Co., Montreal.

No Traveller
First Yodel — That says, "Please stop a moment and read what lives atop of the hill here." — "What?" — "Mars." — "Mars?" — "Yes, he, know about Mars? Why, to my knowledge he hasn't been out of this town for five years.

CHILDHOOD AILMENTS

The ailments of childhood—constipation, indigestion, colic, colds, etc., can be easily banished through the use of the Baby's Own Tablets. They are a mild but thorough laxative which instantly relieves the bowels and sweetens the stomach. They are guaranteed to be safe for the young and can be given to the youngest baby with perfect safety. Concerning them Mrs. Alcide Lepage, Ste. Beatrix, Quebec, writes: "I have used Baby's Own Tablets to great help to my baby. They regulate her bowels and stomach and made her plump and well." The Tablets are sold by medical dealers at 25¢ a box. From the Dr. Williams' Medicine Co., Brooklyn, Ont.

In the Island of Jersey it is unlawful for a married woman to start a bank account without obtaining her husband's permission in writing.

Worms in children work havoc. These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will finally perforate the bowel, which becomes worms of the hook variety that cling to and feed upon the intestinal surfaces. Miller's Worm Powders will not only exterminate these worms of whatever variety, but will serve to repair the injury they have done.

The Best of Reasons
"I never talk others to think as I do," reminds the broad-minded man, "because tomorrow I may think differently myself."

Corus are painful growths. Holloway's Corn Remover will remove them.

Device to Keep
Ships From Rolling

Huge Gyroscope Stabilizer Steadies
Liner Automatically

Thousands of people will be glad to know that travellers by sea look forward to the day when seasickness has become a thing of the past.

The "Hawkeye" State, a passenger steamer running between Baltimore and Honolulu, is now equipped with a gyroscopic stabilizer designed to prevent the rolling of ships.

The apparatus, which weighs 120 tons and is said to be the largest of its kind ever built, is the first to be placed in a big passenger ship. It reaches a speed of 850 revolutions a minute, and is controlled by a series of small gyroscopes. These register the direction of the roll, and the big wheel is then automatically set in motion in the direction required to steady the ship.

Debts and Claims

We do not want to make a virtue of generosity, but unless the cancellation of inter-Alled debts is accompanied by a general settlement of international claims, our sacrifice will have been in vain.—Westminster Gazette.

Passenger Men to Gather in West

Important Meeting of Passenger
Agents in Canadian Pacific
Rockies

One of the most important of the many meetings to be held in the Canadian Association of Travelling Passenger Agents which will take place in the Canadian Pacific Rockies this month. American interest in this country has been growing by leaps and bounds since the war and this is being shown by the steadily increasing number of Americans who are visiting this country. In the Canadian Pacific Rockies and in the unbroken summer resorts of Ontario, Quebec and the Maritime Provinces are found endless attractions for visitors from the United States, and some of the conventions that have come across the line have been of tremendous importance in that they have enabled thousands of Americans to become acquainted with Canada and to mutual benefit to both countries.

The holding of the annual convention of the passenger agents in Canada this year is a matter of first-rate importance to this country, and particularly so to those places which will be visited during the tour of the country, that takes place in connection with the convention. These agents are all the time in touch with travellers, and they are in a position to divert much traffic along lines that they believe to be desirable. Thus it is important that they should be well acquainted with Canada, its cities, its people, its points of scenic interest and the opportunities which the country affords.

The Association is made up of passenger representatives of railway and steamship lines on the North American continent and has an honorary members many passenger trade managers and general passenger agents.

At the convention held at Salt Lake City in September, 1921, an invitation was extended by the Canadian Pacific Railway for the Association to hold their 1922 convention along the lines of the Canadian Pacific. This invitation was enthusiastically and unanimously accepted and from the interest being shown by the members there is no doubt of a record breaking attendance this year.

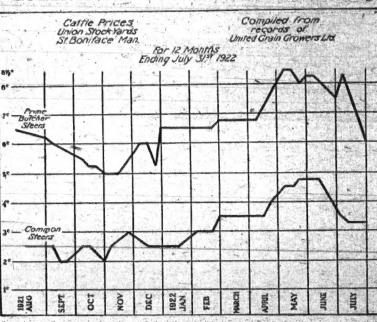

Minard's Liniment Lumberman's Friend

No two finger nails on our hands grow at the same rate. The nail on the middle finger grows faster than any other, while the thumb nail is of slowest growth.

Self-possession is at least eight or nine points of the law.

If a man ever wanted but little here below he got over it long ago.

Conditions For Livestock Marketing

Instead of selling unfinished cattle suit is that prices go down, and the fall market is extremely unsatisfactory for cattle producers.

On the other hand, only a limited number of our cattle are whiter fed to be sold as finished cattle in the fall market. The market is good from January to June, and there is usually a good demand for cattle during that period. The best winter fed cattle come on the market in May and June, and that is when prices are usually best. But even in the winter the improvement in prices is usually to be noted. Winter feeding, therefore, even for only a short period may not only put cattle in a higher grade by improving their condition and finish, but will probably bring cattle to market at a much better time for selling.

The chart above is one of a number prepared by United Grain Growers to illustrate conditions of livestock marketing.

German Sea Trade

Statistics of Port of Hamburg Show
Great Revival

The extent of the revival of German sea trade is reflected in the statistics of the port of Hamburg. In May of 1918, a banner year, 1,142 vessels, totalling 1,246,000 net registered tons, arrived at the port. In May, 1919, the departures from the port showed 1,469 vessels, totalling 1,325,000 net registered tons. In May, 1922, 1,563 vessels, totalling 1,251,000 tons, departed.

Greeks Are Massacred By Turks At Smyrna While City Is In Flames

London.—The conflagration in Smyrna was started by a sergeant of Turkish regulars, according to Miss Miles, head mistress of the American College in Smyrna, says a despatch to The Times from Athens.

The sergeant was seen to enter a house carrying cans of petrol. The damage so far is estimated at £15,000,000.

The correspondent says it is reported in Athens that up to the time of the outbreak of the fire, about 1,000 persons had been massacred, and that it is feared the number is now much greater.

Reports have reached London that the Turks have commenced reprisals against the Armenians at Smyrna, but no indication of this nature or extent has been received.

The British inhabitants of Smyrna, with a few exceptions, were safely evacuated aboard warships.

Scores of buildings in the European section of the city are destroyed, including the United States consulate. Allied soldiers formed a fire brigade, but the conflagration is beyond their control. The property damage is estimated in the millions. The fire originated in the Armenian quarters and spread rapidly.

A Reuter's despatch from Athens says the French steamer Lamartine arrived there with 150 refugees from Smyrna, including a Greek journalist. The journalist asserted that both the

metropolitan of the Greek Church and the Armenian metropolitan in Smyrna were murdered and that the Kemalists massacred about 2,000 Greek soldiers, whose bodies were thrown into the sea.

Mustapha Kemal Pasha has resolved to march his army on Constantinople unless the powers hand over the city to the Turks, according to a statement he made to the Daily Mail correspondent at Smyrna. He also reiterated that his peace terms were based on the national pact.

America's Part in War

New York.—Sir Auckland Geddes, British Ambassador to the United States, has been given leave to visit delegates to the National Police Conference, said that America played a great role in ending the world war and that anyone who said otherwise was one of three things, "ignorant, malicious or just a fool." Both the British Ambassador and John W. Davis, former American Ambassador to Great Britain, referred in their addresses to the recent statement attributed to Rudyard Kipling, belittling America's part in the war. Ambassador Geddes warned his hearers to be on their guard against those who sought to sow seeds of discord.

Might Declare a Moratorium

Saskatchewan Premier Issues Warning to Conference of Creditor Classes

Beginning a warning that the Government may have to face the question of exercising its power to declare a moratorium in Saskatchewan was uttered by Premier Chas. Dunning. The Government's decision, he said, would be guided by two factors: the continuance or otherwise of the policy of piling up expenses against debtors by the use of court procedure for the enforcement of collections, and the price of wheat.

Mr. Dunning's announcement was made towards the close of an all-day conference of creditor classes, called by the Government to consider ways and means of preventing the necessity of farmers throwing their wheat into the market immediately after threshing, thereby forcing the price down below the cost of production.

The conference did not crystallize its sentiments with respect to moratorium legislation by the passage of any resolution.

With the exception of the banks, practically all the large creditor groups were represented, including the loan companies, implement companies, lumber companies, retail merchants, wholesalers, the rural municipalities, in addition to the Saskatchewan Stockgrowers' Association, the Saskatchewan Co-operative Elevator Company, and the Board of Trade. Many of the members of the legislature were also present, as well as members of the government.

Rescues Three Boys From Whirlpool

Fourteen-Year-Old Girl Gave Life to Save Companions

Blievat, Syria.—A remarkable story of self-sacrifice in which a fourteen-year-old girl gave her life to save three companions, has been received here.

While 500 children were bathing in the water near an orphange of the Ain Tilia village, three small boys were caught in a whirlpool, which has been described as the "deadly Manzana," the only other person near, swam to the edge of the whirlpool and succeeded by almost superhuman efforts in rescue all the children and carrying them to a rock. Then she collapsed from over-exertion and died before a lifeboat could reach the rock.

Dutch Farmers May Come to Canada

Government Scheme to Assist Experienced Men to Emigrate

Ottawa.—An immigration of experienced agriculturists from Holland to Canada is likely, according to Baron J. C. C. Sandberg, who left Ottawa for Toronto after interviewing Hon. Charles Stewart, Minister of the Interior, and other members of the Government. Baron Sandberg was in Ottawa representing the Government of Holland, which proposes a scheme of assisted emigration of farmers and agricultural laborers and their families.

Present employees and the strikers will be retained by the railroads signing the Jewell-Willard agreement; the old employees to return to their former positions at the present rates of pay, not later than 30 days after the agreement is signed. All strikers, with the exception of those found guilty of acts of violence, are to be on the railroads' payroll at the end of the 30-day period. Men will be called back to work in the order of their standing.

Trip Was Successful

Explorer Plans to Return to Arctic

Wiscasset, Maine.—Donald B. MacMillan, explorer, plans to return to the Arctic in July next year, sailing from the port in the Bowdoin. He said that his recent trip had been successful and that another would be undertaken.

The most important discovery made on his exploration trip to Baffin Land, he added, was that it is a narrow peninsula and not a great land as mapped.

Embargo Delays Canadian Shipments

New York.—Freight shipments from Canada through the western states to the east are being delayed by reason of the embargo, freight, except for foodstuffs and other necessities, by the New York Central, Lackawanna, Lehigh Valley and Erie Railroads. The embargo was placed to facilitate the movement of coal to relieve the threatened shortage resulting from the coal strike.

Two B.C. Miners Buried Alive

Merritt, B.C.—Two men were buried alive in the Middlebrook Collieries mine, about 100 feet below the surface, while at work. The men are Sam Crawford and Lewis Shearer, both experienced miners. Their bodies were recovered within an hour, but all attempts to resuscitate them failed.

Australia Maintains Universal Service

London.—Replies to a deputation representing Labor, Socialist, and other organizations, the Australian Minister of Defense, said there was no hope of abolishing the compulsory provisions of the Defense Act, says a Reuter despatch from Melbourne.

WESTERN EDITORS

Winnipeg—An intimation which al-

most amounted to a warning, was given by Hon. Neil Cameron, Provincial Minister of Agriculture, to loan companies, implement houses and banks, to deal gently with farmer debtors.

Discussing the possibility of a moratorium being adopted for the province this year, he stated that while no decision to enact such legislation had been arrived at, the financial interests would have to give the utmost consideration to farmers in view of the protracted period of financial difficulties.

The minister declared the matter of a moratorium would be taken up in the Cabinet at the first opportunity.

From other sources it was learned that a meeting between representatives of the loan companies and members of the Cabinet had been held and that while moratorium issues had been raised, other ways of assisting farmers over the difficult period were favored by the Government. Consideration of the moratorium would be given by the Board of Directors of the United Farmers of Manitoba at their next meeting early in October, said Wood, Secretary of the Association.

That the reference made by Premier Dunning, of Saskatchewan, that farmers should go to the Bank of Canada to prevent those of the United States getting an ascendancy in influence over commercial affairs in the province.

While the demand, amounting of 127 million, was authorized by officials of the city and district. One of the points urged by Mr. Manning in his address to the visitors was the desire of citizens of British Columbia that investors of Eastern Canada should do their part to prevent those of the United States getting an ascendancy in influence over commercial affairs in the province.

While Regulate Export Of Canadian Cattle

Agricultural Council Anxious to Keep Quality Up to Standard

Winnipeg.—Restrictions as to the quality of cattle exported to Great Britain when the embargo is removed, and regulation to approximate the demand at the several seasons of the year, are being sought by the Canadian Council of Agriculture.

The council is appealing to the Dominion Government, through the ministers of agriculture and trade and commerce, in order that the British market may not be flooded with Canadian cattle at inopportune times, and that the quality may be kept up to the standard required by the British buyers.

Two Men Killed

In Dust Explosion

Plant of American Honey Co., Indiana, Was Destroyed

Terre Haute, Ind.—Two men are known to be dead, and damage estimated at \$3,000,000 done as the result of the fire caused by an explosion which occurred in the plant of the American Honey Co. here. Fred Stevens and a man whose identity has not been learned, are known to be dead and it is feared other persons may have been trapped.

Sixty persons were working in the plant when an explosion, followed by fire, occurred.

SUCH PAINS AS THIS WOMAN HAD

Two Months Could Not Turn in Bed. Lydia E. Pinkham's Vegetable Compound Finally Restored Health

Seattle, Washington.—"I had dragging pains first and could not stand on my feet, then I had chill and fever and such pain in my right arm and hand, a lump there. I could not turn myself in bed. I slept this way for over two months, trying everything, nothing would help, till my sister brought me a bottle of Lydia E. Pinkham's Vegetable Compound. I took a spoonful of it and the bad pains had left me and I was able to be up and do my work again. The hard lump left my side and I feel fine now. I am now strong again. Lydia E. Pinkham's Vegetable Compound has helped me more than any one told me" had failed.

If you are suffering from pain, nervousness, rheumatism, or any disease where the symptoms are low spirited and good for nothing, take Lydia E. Pinkham's Vegetable Compound. You may not only relieve the present distress, but prevent the development of more serious trouble.

Geneva.—A race between France and Great Britain to prove which of their methods to obtain a reduction in armaments will yield the most results is in progress in consequence of a decision of the disarmament committee of the assembly. The committee in charge of the negotiations of Hon. M. de Jouvenet, of France, and Lord Robert Cecil, of England, into a resolution which will be transmitted to the assembly.

The Great Lakes treaty between the United States and Canada was again cited before the committee by H. A. L. Fisher, representing Great Britain, as an example of what a regional agreement ought to be. This document of a hundred years ago, he said, might well be taken as a model, as well as proof of what such an understanding may accomplish. Mr. Fisher's arguments and those of other supporters of regional agreements

to prepare the text of a treaty for a regional agreement, as well as other agreements to be submitted to the various governments, will be asked to give their views on them so that the next assembly may act.

The decision of the committee means that there will be no possible action by this assembly on the plans for the reduction of armaments, but that the work of investigation already begun will continue.

Question Of Moratorium Is Subject Of Discussion By Manitoba Legislators

Winnipeg.—An intimation which almost amounted to a warning, was given by Hon. Neil Cameron, Provincial Minister of Agriculture, to loan companies, implement houses and banks,

to deal gently with farmer debtors.

Discussing the possibility of a moratorium being adopted for the province this year, he stated that while no decision to enact such legislation had been arrived at, the financial interests would have to give the utmost consideration to farmers in view of the protracted period of financial difficulties.

The minister declared the matter of a moratorium would be taken up in the Cabinet at the first opportunity.

From other sources it was learned that a meeting between representatives of the loan companies and members of the Cabinet had been held and that while moratorium issues had been raised, other ways of assisting farmers over the difficult period were favored by the Government. Consideration of the moratorium would be given by the Board of Directors of the United Farmers of Manitoba at their next meeting early in October, said Wood, Secretary of the Association.

The minister declared the matter of a moratorium would be taken up in the Cabinet at the first opportunity.

Consideration of the moratorium would be given by the Board of Directors of the United Farmers of Manitoba at their next meeting early in October, said Wood, Secretary of the Association.

That the reference made by Premier Dunning, of Saskatchewan, that farmers should go to the Bank of Canada to prevent those of the United States getting an ascendancy in influence over commercial affairs in the province.

While Regulate Export Of Canadian Cattle

Agricultural Council Anxious to Keep Quality Up to Standard

Winnipeg.—Restrictions as to the quality of cattle exported to Great Britain when the embargo is removed, and regulation to approximate the demand at the several seasons of the year, are being sought by the Canadian Council of Agriculture.

The council is appealing to the Dominion Government, through the ministers of agriculture and trade and commerce, in order that the British market may not be flooded with Canadian cattle at inopportune times, and that the quality may be kept up to the standard required by the British buyers.

HOW PARENTS CAN NOW ASSIST THE TEACHER

Without a doubt there are many occasions upon which the school teacher is blamed for results attained (or unattained) which at once prove that the censure is not being placed in the right quarter.

The following few pertinent questions, carefully studied and acted upon might do much to increase efficiency and reduce occasional friction:

Do you visit the school to inquire about your child's progress and deportment, and to see if you can help the teacher help the child?

Do you encourage your child to respect its teachers and others in authority?

Do you send your child to bed in time so that the child will be properly rested and fit for the next day's study?

Do you provide plain, nourishing food and see that your child is up in time in the morning to eat a good breakfast?

Do you teach your child to read the papers and find out the best in them; do you encourage an interest in public affairs?

Do you avoid gossip and the telling of incidents which may be misinterpreted before your children?

Do you encourage helpful conversation at the table?

Do you interest yourself in the child's sports, amusements and friendships?

Do you comply with the rules of public health in your home and do you keep in mind the fact that the school may do much to instill right principles, your child is handicapped if you do not support it by instilling obedience and high ideals of patriotism and personal life?

Do you realize that the very best of school systems cannot take the load of responsibility from the backs of parents?

As a matter of fact—the better the school the greater the responsibility of the parents is!

WHY NOT GET AFTER

THE SOURCE OF SUPPLY?

Baids were made on a number of soft drink places in Blairmore on Tuesday night by members of the Alberta Provincial Police Force, and samples of beer were taken to be forwarded to Edmonton for analysis. The local source, or sources, of distribution were not molested.

The public are beginning to wonder why these raids on retailers periodically, when apparently no real effort is being made to stop the shipments into the local market from provincial breweries. If the stuff being shipped in is believed to be of illegal strength, why not stop it at the source of manufacture or supply?

WERE DULL AT SCHOOL; FAMOUS IN LATER LIFE

LONDON.—In handing out prizes at Christ College, Blackheath, Lord Justice Scrutton consoled the boys who were not among the winners by saying that four of the foremost judges on the English bench today never won an honor during their school life. Since then there has been an attempt to ascertain some of the dunces who have won great places for themselves in British History.

Isaac Newton, discoverer of the universal law of gravitation, was pronounced a dunce when a schoolboy.

Hume, the philosopher, was described in his youth as having a weak mind.

Gibbon, the historian, was pro-

RED CROSS SOCIETY NEWS

The Provincial Division of the Red Cross Society is making extensive preparations for the Finance and Membership campaign which is timed to take place on November 5th, ending on Armistice Day, November 11th. Posters will be issued to every post office in the province direct from the Post Office at Ottawa, and all branches will be supplied with campaign literature to assist in the great drive.

At the present time there are two hundred active branches and committees, and it is expected that between the present date and the campaign, two hundred more will be organized. The province will be divided into four hundred districts, each under the direction of a local committee.

It is confidently expected that there will be a generous and unanimous response to the appeal for funds, as the public are becoming more and more aquainted with the remarkable record of pioneer service in nursing the sick at points beyond the fringe of civilization. The latest, and perhaps one of the best achievements of the Red Cross is the establishment in the city of Calgary of the first Sick Children's Hospital in Canada. To its doors are brought the maimed and crippled youngsters from all over the province. There they receive the skill and care that is only obtainable in city hospitals. The distribution in the drought section last winter brought comfort to many thousands of women and children in the extreme weather. At Elkbank House the work has been carried on 'a' no the war of caring for the soldier's dependent children, feeding, clothing and carrying on the public school education.

The new departure of health-instruction to the people is part of the reproductive activities and is being conducted with considerable skill and resourcefulness.

It is no easy task to attempt to persuade the man on the street that he should take a health inventory of himself. The new health-education enables him to measure his health as a positive possession and treasure. By increasing its possible further gain adding to the capital of his personality.

The Red Cross is co-operating with the public health departments and is setting the standards of public health higher each year. In trying to reach this high standard it is conscious of the limitations of funds.

Prevention is cheaper, as well as better than cure, and in serving humanity in the cause of health the Red Cross recognizes the supreme importance of diminishing the world's suffering by broadening the laws that govern healthy living.

For this reason it maintains a health library, rural baby clinics, home-nursing classes, moving pictures and lecture service, carrying to the most distant points the gospel of good health.

Now must we forget that in event of a national disaster or epidemic there is at Divisional Head-quarters an Emergency and Relief Service ready at a moment's notice to cope with any calls.

The Ford Motor Car Co. has purchased 15 acres of land from the Grand Trunk Railway on the eastern border of Toronto for \$175,000, and will erect thereon a one-story car assembling plant having 150,000 feet of floor space. This is the first property in Toronto or its vicinity sold by the Grand Trunk for more than 20 years.

pronounced "dreadfully dull."

Dryden, the greatest of English satirists, was in his boyhood said to be "a great numbskull."

Oliver Goldsmith never showed any promise in his early youth.

Sir Walter Scott won the appellation of "the boy that has the thickest skull in school."

The Duke of Wellington, after a dismal experience at Eton, was sent to the Military College at Angers to qualify him, as it was then said, "to become food for powder."

Lady Astor Makes Appeal

British Woman M.P. Pleads for Redress of Wrongs to Women and Children

"I don't tell men what they want to know; I tell them what they need to know," declared Lady Astor, member of the British House of Commons, in addressing a large throng of Toronto's simplest men and organizations in Convocation Hall. This distinguished lady told the audience just what she thinks about women—and what she thinks about women.

Miss Agnes Macphail, only lady member of the Canadian House of Commons, also was present and there was a peculiar bond of sympathy prevalent between the two women. Perhaps no two people ever had for the time being so much in common.

"I sometimes feel very lonely," said Miss Macphail.

"I know, I know," Lady Astor's gesture spoke for her.

Lady Astor was sketchy on her own politics, but urged women to forget parties when general moral problems were concerned. She ended with a strong plea for more Christian fulfillment of their beliefs by professed Christians.

Arriving with the Cliveden home of the Astors in England, which was turned over to the military for a hospital, and with Lady Astor and General S. C. Mewburn went through the process of "writing red tape straight," Lady Astor said.

"There is a bit of Cliveden that is forever Canada." She had said when in Canada that she dreaded speaking to a Canadian audience, meaning that Canada had a very special place in her heart and one good soul immediately procured for her help in trouble. "5,000 facts about Canada."

"Yes, you laugh," said the speaker. "That woman did not understand that to speak about something we love, hurts, when it has meant what it did."

In Lady Astor's vivid words, one saw the mighty young giant Canada, surging overseas and gallant; and the "honor of her youth, spent and dying, having hung up for me and more fit by tender hands at Cliveden and elsewhere." She made her audience laugh one moment by the recital of a backwoodsman's proposal to her. He was obstreperous about staying on the bed and she was sent to apologetically. "You're the sort of woman I want to take back with me to my cottage as my wife."

The next instant Lady Astor had caught the hearts of sorrowing wives and mothers in one mighty loving grip—and they rose up and thanked her, just as the individual woman did later. She inspired them by reminding them of what public life might mean; of the peace that women stood for; of the things they had to fight for until they could make men see the need for joint dress of age-old wounds to women and children. She touched the returned soldier problem. "If only you wouldn't go home with a grievance! I used to tell them. But what is man without a grievance?"

Have Faith in Corn

Russian Agriculturists Hail Corn as Preventive of any Further Famines

American corn, which, as a result of American participation in Russian famine relief, is to be sown this spring for the first time in many parts of the Volga valley, is heralded by Soviet agricultural propagandists as "the giant grain" destined to save the valley from further fears of famine.

"Kukukruza," as the Russians call Indian corn, is lauded poetically in full-page illustrated newspaper appeals to the peasants to sow it. Methods of cultivation are explained and the paper pictures corn of maize higher than a man's head, likely to be derived from corn even at a period when drought would kill wheat and rice.

The meter of the Russian poems in this corn campaign sound strangely like that of an American Indian song.

B.C. May Have Pulp Mill

Some interest has been aroused in this section by the announcement that a pulp mill will be established in the Crow's Nest district between Cranbrook and Fernie, possibly in the vicinity of Elk. There is a big stand of pulp timber in that vicinity and cruisers and pulp experts have been in the neighborhood sizing the situation up. Chicago interests are behind the venture, it is stated, but there is not at the present time any indication that the proposal is anything but tentative.

Several of the independent states of India have adopted prohibition in varying forms.

Hotels in continental Europe never provide soap for their guests.

W. N. U. 1422

GENERAL PERSHING, LL.D., MCGILL, MONTREAL.

During his short stay in Montreal, General John J. Pershing was given a degree of Doctor of Laws by McGill University. He is here seen marching through Montreal streets from the University to the convocation hall, being followed by the University faculty and students. General Pershing wore the black velvet cap, and scarlet gown of his degree. On his left is Sir Louis Davis, representing the Cana-

dian Government, and next in order behind him are, E. W. Beatty, Chancellor of McGill University, and President of the Canadian Pacific Railway, and Sir Arthur Currie, Principal and Vice-Chancellor of McGill, who was Commander in Chief of the Canadian forces overseas.

In an address before the Canadian Club earlier in the day, General Per-

shing said:

"I think no army that served in the

world war suffered more than the

Canadians; none were more gallant; none came home with greater laurels; than those American representatives from north of the 49th parallel. I do not wish to draw any comparisons, but out of those 450,000 Canadians who went overseas to fight for liberty and justice about half were casualties. No army has a better record than that, and it is something of which Canadians and Americans are justly proud—for we are all Americans in a broad sense."

Vimy Ridge

Where the Price of Nationhood Was Paid and the Link of Nationhood Forged

King George V was paying a visit to Vimy Ridge. Many Canadians have vivid recollections of Vimy Ridge. It overlooked the village of Vimy and the town of Lens; the Arras road ran past quite near, and some farming country spread itself westwards, with trees and farms and woodlands.

What the Canadian who knows most of Vimy Ridge remembers about it is the shell holes, the mine holes, the blasted fields, the mud, the debris of the bits of broken guns and rifles, rotting horses, splintered caissons and shells.

The Canadian division stormed Vimy Ridge, and took it. They made their preparations under German gunfire; they lost a lot of men when they drove the Germans out of their positions on the ridge. It was held at Vimy Ridge when the Canadians took it; hell belling red and running over; there were no larks singing above Vimy Ridge on that day.

Everything is quiet there now, and the travellers may walk up the green slope and see the smoke curl up from the chimneys in Vimy village, and watch the traffic on the Arras road, and the road to the top of the hill; there are lots of Canadians still on Vimy Ridge, their houses incorporated with alien soil; and an often as Canadian thoughts turn to Vimy Ridge it is to think of it as one of the places where the price of nationhood was paid and where the link of nationhood was forged—Winnipeg Free Press.

Modern Forest Policy

New Brunswick is Having Timber Examined and Classified

In laying the foundation of a modern forest policy, New Brunswick has given the lead to the continent, according to a prominent official of the United States Department of Forestry. Over 4,000,000 acres in the province have been examined and classified by a special staff of technical foresters. The data developed by the survey have been embodied in timber maps, showing all timber types and permanent features with respect to watershed and regions, etc. Estimated annual growth of the standing timber, at least and over, on the stump, by species and unit of area, based on a four per cent. caliper tally, considered by experts as intensive.

Farm Laborers from Holland

To relieve the farm labor shortage in Saskatchewan and to bring into the public works department, following a trip of 900 miles taken by Hon. Alex. Ross and J. D. Robertson, Deputy Minister, for purposes of inspection. Attention is to be given largely to market roads; and to extension and repair of trunk roads where urgent.

The Vegetable Garden

Preparation of the Soil has Much to Do with the Success of the Garden

There are so many different phases of work to be considered in connection with the planting of a garden that one needs to have a thorough grasp of the proper procedure. The first operation to be conducted when weather conditions are right, is the preparation of the soil. While the soil is a sandy nature, there is little danger of injuring its physical make-up, but when too moist will cause puddling which would render the soil lumpy for that season. However, the cultivation given the garden prior to sowing the seed should be thorough, so that weeds will not be troublesome in every respect, because in this stage will depend to a very great degree the success or failure of the garden.

To obtain the maximum returns from any garden, it is necessary to employ successional sowing of such crops as peas, beans, beets, carrots, radish and lettuce. The sowings should be regulated at intervals of a week or ten days apart so as to have a succession of tender fresh vegetables available throughout the season. The first sowings should be made as early as weather and soil conditions will permit and continued in succession until the last week of June.

Regarding the sowing of the seed, one must be careful to regulate the depth in accordance with the season of the year. During the early part of the season, shallowing the planting is essential, but as the season advances the soil becomes warmed to a greater depth, it will be found necessary to increase the depth in the ground to which the seed is placed, bearing in mind, of course, that large and small seeds must be planted in depth in accordance with their size.

Whether the gardens be large or small, the ambition of every gardener should be to obtain the most from the given area. This can be done by a system of double cropping, or catch cropping, using such quick maturing crops as radish and lettuce. The early maturing crops are soon harvested, and the seed becomes warmed to a greater depth, it will be found necessary to increase the depth in the ground to which the seed is placed, bearing in mind, of course, that large and small seeds must be planted in depth in accordance with their size.

A large programme of road work in Alberta is being planned now by the Public Works Department, following a trip of 900 miles taken by Hon. Alex. Ross and J. D. Robertson, Deputy Minister, for purposes of inspection. Attention is to be given largely to market roads; and to extension and repair of trunk roads where urgent.

Will Improve Alberta Roads

A large programme of road work in Alberta is being planned now by the Public Works Department, following a trip of 900 miles taken by Hon. Alex. Ross and J. D. Robertson, Deputy Minister, for purposes of inspection. Attention is to be given largely to market roads; and to extension and repair of trunk roads where urgent.

In New York State more than 350,000 women are employed in manufacturing and mechanical industries.

Plenty of Berries

B.C. Supply Will Meet Prairie Demand, Due to Increased Acreage this Year

There will be sufficient crops of strawberries and raspberries in British Columbia this year to supply the prairie markets is the statement made by H. M. Eddie, President of the British Columbia Berry Growers' Association. Mr. Eddie states that while prospects are for a short berry crop this season, the increased acreage in fruit over last year will make about a total yield equal to that of last season.

Last year, Mr. Eddie said, there was a big surplus berry crop which had to be put into cold storage, but this year, if the prairie markets so demand, not a single berry will be put into cold storage. He declared there is not the slightest need for consumers to be alarmed at the prospect of a shortage of berries, for although the berry market is good this year there will be an ample supply to take care of the prairie and jam markets.

Air Supremacy

Gen. Branner on German's Rapid Progress

"Germany is considerably ahead of everybody in all forms of aviation," said Major-General Sir W. S. Branner, formerly Director of Air Organization, at a luncheon of the Manchester Rotary Club. "In a year or two, he said, Germans would be able to fly all over Europe. To set against their progress Britons would only be able to show in the coming summer the small services between London and Paris and service between the military service between Cairo and Bagdad. In 1920 there were 1,020 British flights from the London aerodrome; last summer there were only 340.

Government Cream Standards

New System of Grading Established in Alberta Results in Better Prices

The elimination of the cream buying and grading stations and the inauguration of the Government system of grading, which came into effect in Alberta a few days ago, have the immediate result of an announcement of an increase of five cents per pound in the price paid to farmers for cream.

The system of Government grading of cream has placed the business on such a basis of certainty that the dairies and creameries now feel justified in announcing a premium for high grade cream big enough to make a substantial inducement for farmers to produce the best grades.

London still contains two buildings that witnessed the performance of Shakespeare's plays during Shakespeare's life—the Middle Temple and Hall of Gray's Inn.

The average educated person in daily speech and writing uses no more than 2,000 words.

Ireland produces nearly 75,000,000 bushels of potatoes yearly.

Ancient System of Calculating

Early People Founded Counting on Movements of Sun

You may have wondered sometimes how it is that whilst most of our country is 60° in longitude we have several examples of reckoning by twelves, such as the half-dozen, the dozen, the gross, and also the divisions of the year and of the day.

The reason is that in the old days there were two quite distinct systems of calculating. The Jews and Arabs used their ten fingers as an aid to addition, and from them we get the decimal system. But other early peoples had a system of counting founded on the number of their fingers, but on the movements of the sun.

They adopted as their unit the time which the sun takes to travel his own length, that is one minute.

They found that the sun required 720 minutes to pass from sunrise to sunset at those times of the year when day and night were equal, and these they divided into 12 hours of 60 minutes each.

Thus their "peasant" group for calculating purposes, and 60 (5 times 12) was their top number, corresponding to our hundred.

They were at first only moderately good astronomers, so they worked out the year at 360 days, which gave 12 months of 30 days each. Each month had two spells of twelve working days, and six days of rest. Later they adopted the six-day week, with a seventh rest day as part of it.

We can see a curious survival of the 12 system in our own language. Most others have no proper words for numbers beyond ten—they must say "one-and-ten," "two-and-ten," and so on up to twenty (two tens); but we have distinct words in "eleven" and "twelve."

Seed Testing

Service to be Rendered Free of Charge for Nine Months Each Year at Dominion Laboratories

Farmers can obtain a knowledge of the quality of their seed by sowing it in plots by scattering a hundred or two hundred grains in a flower pot or box of soil from their own land and keeping the pot or box in a sunny window. This should be kept moist but not wet and the temperature not allowed to run to extremes either in heat or in cold. As a further protection to them, and to seed merchants, the Dominion Minister of Agriculture, has arranged to restore the privilege of the free testing of seeds at the Government Laboratories in Ottawa, Winnipeg, Calgary to the extent of 100 samples from each person applying, this privilege to extend from the first day of May to the last day of January following. A fee of fifty cents per test will be made for samples sent in during February, March and April, and during those months the staff of analysts and experts employed are extra busy in performing the duties of their ordinary work.

These dues are so exacting during the three excepted months that the annual charge for testing made at that time is to avoid congestion. In addition to the laboratories mentioned, there are seed inspection offices at Truro, N.S., Quebec, and Toronto. MINERS FOUND DEAD BY RESCUE PARTY

JACKSON, Calif., Sept. 19.—Forty-seven corpses greeted the rescuers who have fought their way by slow degrees into the 4,500 foot level of the Argonaut gold mine here last night, 22 days after an explosion in the upper workings of the mine imprisoning 47 miners in their subterranean workshop. Notes which formed a crude diary of the surviving hours showed that the men all died within five or six hours after the explosion on August 27, last, victims to the poisonous fumes which flooded the lower workings from the fire which raged above their heads and which is still burning. Against these clouds of carbon dioxide gas the prisoners had flung crude bulkheads of timbers and stones, stripping themselves of clothing to stop the interstices through which the foul air seeped and finally choked them.

THE STENOG'S VACATION Sung by Her Boss

My typist is on her vacation
My tripst's awaf for a week.
My typist is in hwy vacation
Wigle thisa dama kews hudge and seek.

A negro charged with stealing a watch had been arraigned before the court. The judge was not convinced that he was guilty and said:

"You are acquitted, Sam."

"Acquited," repeated Sam doubtfully. "What's dat mean, judge?"

"That's the sentence; you are acquitted."

Still looking somewhat confused, Sam said: "Judge is dat mean I hab to gib de watch back?"

— Christian Evangelist.

BABY'S TEETH

Actress Mother (languidly): "Well, marse, how is baby today?"

Nurse: "He cut 'two teeth this morning."

Mother (still more languidly): "That was careless of you, marse! You ought not to let a young baby play with a knife."

Painting and Decorating

Cowley Happenings

John Kummis and daughter Annie were Macleod visitors on Monday.

Mrs. Burn, of Lundbreck, is visiting with her daughter, Mrs. Porter, here.

Several Cowley residents have motored to Cardston this week to see the temple.

The weather turned out fine and warm on Sunday and consequently all are busy threshing. Reports of good yields are frequent.

Half a dozen of the local golfers attended the Pincher Creek tournament on Sunday, but failed to bring home any trophies. A large entry kept the course busy from morning till night.

The community was deeply shocked to hear of the sudden death at Edmonton on the 18th instant of Mrs. George H. Van Allen, formerly of this place. Her father, Hugh McMillan, left Edmonton the same night.

Mrs. C. Farrant, of North F. rk. Co., died on Sunday last, after a lingering illness. Interment took place in the Livingston cemetery on Tuesday afternoon. A husband and one young daughter are left to mourn her loss. Mr. Farrant is a soldier settler.

Since the advent of a lady barber in town, all the young gaffers, and others old enough to know better, are taking shampoos, shaves, etc., every few hours of the day.

A Family Necessity

No other journal caters so intimately and minutely to the needs of the agriculturist as does the Family Herald and Medical to his religious needs, from the health of his stock, to the capabilities of his machinery, from his dies' conductivity to their pickles, from the ministrations of the doctor, to the breaking down of his helping hand to the amanuensis of his child, even from his individual care to his public duties, he finds companionhip, help and guidance in the same old journal, which delighted his fathers and is the joy of his children today. He could not afford to be without the Family Herald and Weekly Star of Montreal. The subscription price is \$2.00 per year.

THE CIRCUS AGENT'S BABY

A circus press agent, becoming the father of a healthy boy, scorned to send forth the customary, conservative and engraved announcement, and substituted the following:

He is here! He is here!

The Greatest, Grandest, most Glittery Gorgeous Gift of God!

A BABY!

Opens an unlimited engagement at the home of Mr. and Mrs. Henry J. Tanbrak.

Positively his first appearance in any crib!

Nine—count them—perfect pounds. See this burley, bouncing, brawling, nighthorn boy. See him toy with his temptation and tintinnabulating toes!

Hear him cry with his loud, lusty and leaping lungs.

SEE HIM FED

FYING TO SAVE CEMENT WORK IN WEST PROVINCES

OTTAWA, Sept. 13.—Millions of dollars' worth of cement construction are involved in an important series of scientific experiments now underway. Examination has shown that cement structures, subject to the action of alkaline waters, particularly in the western provinces, are slowly disintegrating. A committee of scientific experts, under the chairmanship of Prof. J. C. MacKenzie, of the University of Saskatchewan, was appointed to investigate and a fund created to finance the work. The research council of Canada gave \$5,000, while funds from the provinces of Saskatchewan and Alberta, the Canadian Cement company, the C. P. R., and the city

Tenders Wanted

BY THE
Coleman Crystal Rink

SEALED TENDERS will be received

by the undersigned, at his office at

Coleman, Alberta, until noon, on

Wednesday, September 26, 1922, at

which place and hour they will be

publicly opened and read for the

construction of a combined Skating

and Curling Arena, in the town of

Coleman, Alberta. The dimensions

of the building, 200 feet long and 100 feet wide to be used as

a Skating Rink, with a "Lean to" one

hundred feet long and 40 feet wide, four feet wide, as an addition to be

used as a Curling Rink, and will in-

volve about one hundred and seventy-five thousand £. b. m. in the

construction of the building, to be

paid in instalments on or after Wednesday, September 27th, 1922.

Each tender must be accompanied by a deposit of two hundred dollars, or a deposit of a certified cheque or draft made payable to the Coleman Crystal Rink Co. Such deposit will be returned to unsuccessful bidders immediately after award is made.

Each successful bidder will be required to pay a deposit and furnish bonds within ten days after the notice of award is mailed to him.

The lowest or any tender not necessarily accepted.

ALEX. M. MORRISON,
President
Coleman Crystal Rink Co.,
Coleman, Alberta

of Winnipeg brought the total funds available to \$18,200.

It was decided to divide the work into two phases, physical field tests and chemical research. Two hundred and fifty blocks of cement were exposed to the action of alkaline water at different points, this stage of the experiments being conducted under the charge of Prof. Williams, of the University of Saskatchewan. The public work, according to the advice received here, is now about to enter on the second stage, that of chemical research work which will be carried on under Prof. Thorodson, assisted by five chemists. It is not expected however, that any results will be ready for publication for another year.

Disintegration of cement construction, under influence of a alkaline water has it is stated, reached such a point that until more is known, it is doubted whether cement can be used where alkaline water is encountered.

The Extraordinary Qualities of Dr. Price's

First, Wholesomeness: The healthful properties of Dr. Price's Cream Baking Powder are proclaimed by most eminent physicians.

Second, Leavening Power: Dr. Price's Cream Baking Powder is so scientifically balanced that it leavens any kind of dough to precise perfection without puffing it on the pan and letting it fall in the oven.

Third, Economy: Dr. Price's prevents waste of good materials and saves enough eggs to pay for itself.

Insure the success of your baking by always using

ASK YOUR LOCAL DRUGGIST Sept. 14-15

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION

PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:

(a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.

(b) Ten year bonds, dated 1st November, 1932, to mature 1st November, 1942.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmatured coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment occurring and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

Dated at Ottawa, 8th August, 1922.

Returns received to date by the Department of Finance indicate a very general acceptance of the proposals for the conversion of 1920 Victory Bonds into new bonds bearing 5% per cent interest and running for a further period of five or ten years as desired. Many holders would like to take considerably more of the new bonds than they have of the maturing issue, but this is not permitted as cash subscriptions are not being invited at this time. It is open, of course, for such persons to add to their holdings of 1920 bonds by purchasing them in the market or from holders who require the cash, and then to surrender them for new bonds. It is known that this is being done.

LODGE NO. 1000

Blairmore Lodge, No. 1000, meets every Thursday night at 8 p.m. in the Oddfellows' hall. Officers for the ensuing term: W. P. Patterson, N.G.; Wm. Oliver, V. G.; D. A. Howes, F.B.; J. B. Harmer, F.S.; J. Montalbetti, Treasurer.

Crow's Nest Encampment No. 4, meets the first and third Mondays of the month. Officers: H. Gillis, V.G.; Sister Walker, V.G.; Sister McFegan, R.S.; Sister Walker, F.S.; Sister Pinkney, Treas.

Blairmore Lodge No. 110, meets every Saturday night at 8 p.m. Officers: H. J. Jepson, M.G.; H. Harrison, V.G.; J. Shovels, H.S.; J. Wyatt, Treas.

Athletics Encampment No. 12, Blairmore, meets the first and third Mondays of the month. Officers: A. B. Carr, C.E.; Fred Fadgut, H.E.; Harry Jones, S.W.; Fred Fadgut, J.W.; E. Essoffia, treasurer; Charles W. Ray, Secretary; Box 6.

Ray of Hope Hospital Lodge No. 67, Blairmore, meets the first and third Mondays of the month. Officers: H. Gillis, N.G.; Sister M. E. Dryden, V.G.; Sister F. M. Hallworth, R.S.; Sister M. M. McEwan, F.S.; Sister M. A. Goss, S.W.

Visitors of the Order are cordially invited to attend the above lodges.

Michel's football team now hold the Misses and.

Some girls dress for town, as if they thought the place deserved. We pity the swimmer who has his head out of the water.

J. E. Gillis is due to return this week end from a visit to Vancouver and Victoria.

The woman who loves every hair on her husband's head hates every hair on his shoulders.

The Trans-Canada, considered favorably the application of the Rick Company for tax exemption.

A better national anthem than "Keep the home fires burning" would be "Darling, I am a rowing cold."

A health hint: If you get sleepy during church services, be careful who you rest your head against.

Who is "Miss Jimmy Yates" referred to by the Blairmore correspondent to the Edinburgh Herald?

Since worry makes one bald, what a pity a man can't worry with his hair instead of the rest of his head.

Richard Lester, an old timer of this district, died rather suddenly near Passavant last week. He leaves a wife and three children.

M. Molino, formerly of Coleman, has leased a store in East Blairmore, and will carry a stock of general and Italian groceries.

Four vagrants broke into a factory office at Cleveland, Ohio, bound and gagged two employes, blew the safe and got away with \$4000 cash.

W. Lee, who had been here leaving J. P. O'Neill as Pass manager for P. Burns & Co., left Wednesday morning for Nelson and Revelstoke.

Rev. W. T. Young, of Blairmore, C. S. Pinet, of Hillcrest, and Thomas Hart, of Bellevue, attended the district meeting of the Methodist church at Macleod last week.

While a few selected soft drink emporiums were being searched for beer of illegal strength on Tuesday night, it is said a full auto load of strong liquor was allowed to pass through to market.

And once again local wedding bands promise to ring out loud and sweet, and one of Blairmore's most charming young ladies is counting the moments till her man decides that two shall live as one.

A jam or fruit shower will be given at the home of Mrs. Kidd on Monday, September the 26th. Any friends who would like to join in giving a shower for Mrs. W. T. Young, who has been sick and in hospital for several weeks, but is now with us again, please put name on jar or parcel and bring to 32 State Street on Monday next, between 3 and 5 o'clock and receive a cup of tea to help him again. Proverbs 19:17. Luke 6:38. 11 Corinthian 9:7.

Holders of 1922 Victory Bonds who have decided to exchange their maturing bonds for new bonds carrying the same rate of interest, under the proposals of the Minister of Finance, which are now being advertised, would do well to surrender their bonds at once, rather than delay until September 30 approaches. When the bonds were first issued in 1917, the 1922 maturity was a favorite with small investors, many of whom were buying bonds for the first time. Consequently, there are many, many thousands of individual holders and it would be a great loss to the banks and the Department of Finance in carrying through the conversion expeditiously, as well as a convenience to the holders themselves, if they will turn their bonds into the banks as early as possible.

Armistice Encampment No. 12, Blairmore, meets the first and third Mondays of the month. Officers: A. B. Carr, C.E.; Fred Fadgut, H.E.; Harry Jones, S.W.; Fred Fadgut, J.W.; E. Essoffia, treasurer; Charles W. Ray, Secretary; Box 6.

Ray of Hope Hospital Lodge No. 67, Blairmore, meets the first and third Mondays of the month. Officers: H. Gillis, N.G.; Sister M. E. Dryden, V.G.; Sister F. M. Hallworth, R.S.; Sister M. M. McEwan, F.S.; Sister M. A. Goss, S.W.

Visitors of the Order are cordially invited to attend the above lodges.

Skirts are longer; but it is only six months more until March.

When you see a man climbing the ladder to enclose, you can almost hit what a woman is holding.

LOST—Between Coleman and Bellevue, an Auto Side Curtain. Please leave at the Blairmore Hardware.

The biggest codfish known was caught off Newfoundland banks in 1836. It weighed, after being cleaned, 130 pounds.

Twenty-six Carrier Rock and Brown Leghorn hens at Fredericton, N.B., produced 474 eggs during the month of August.

We are pleased to learn that John Laughren, who is an old timer in The Pass, has been appointed superintendent for an insurance company and is about to open an office in Blairmore, where he will handle all kinds of insurance, including sickness, accident, life, fire, automobile, etc. John is well known to the miners of District 18 and has a long record as a trusted union official, so we wish him success.

A health hint: If you get sleepy during church services, be careful who you rest your head against.

SEEDS DEVASTATION CAUSED
BY CORN BORER IN CANADA

County Agent H. A. Stevens and E. DeDo returned Friday from Canada where, as members of a party of 44 federal and state agricultural officials, county agents and other, they surveyed the work of the European corn borer in one of the most devastated areas in America. The trip was made from Cleveland to Port Stanley, Ontario, aboard the Ohio Fire and Gas commission steamer Oliver H. Perry.

The party was well received and cared for by representatives of the Dominion government. County agent Stevens describes one of the areas visited as containing about four square miles, completely ravaged by the corn borer. In some of the worst places the corn growers had completely disregarded government precautionary instructions, but infestation was universal. In Canada, it appears, the corn borer confines itself solely to corn, unless forced to feed on other plants. In Massachusetts, it is said, the borer is found in a variety of plants. The area of infestation is not increasing rapidly, but the quarantine line is nevertheless being gradually extended. The borer in its adult moth stage has been seen flying as far as 12 miles from shore, and it is now generally believed that this is the means by which it entered Ohio.

Ashthabula co. is the most seriously infested area in Ohio. This it appears is due to the comparatively short distance from Canada and the direction of the prevailing winds.

Sweet corn and flint corn are less resistant to the borer than the common variety; it has been observed, and it is hoped to discourage early sweet corn and flint corn altogether. European parsnips are now being introduced into America as one means of checking the borer, it is said.

Sweet corn and flint corn are less resistant to the borer than the common variety; it has been observed, and it is hoped to discourage early sweet corn and flint corn altogether. European parsnips are now being introduced into America as one means of checking the borer, it is said.

All main highways leading from quarantined districts are now being policed by state authorities to enforce the quarantine, it is said. Despite all precautions, however, it is necessary to gradually extend the quarantined area. — Sandusky Star-Journal.

All main highways leading from quarantined districts are now being policed by state authorities to enforce the quarantine, it is said. Despite all precautions, however, it is necessary to gradually extend the quarantined area. — Sandusky Star-Journal.

At this season of the year, when the first frosts are putting the autumn tints on the trees, it might be interesting to know something about the frost free periods in Alberta. The following figures are taken from statistics prepared by the Publicity and Statistical Branch of the Department of Agriculture, compiled from the meteorological records covering a number of years.

Commencing at Medicine Hat in the south, we find that over a period of 37 years, Medicine Hat has had an average of 119 days frost free, with 146 days in 1914 as the longest period and 98 days in 1917 as the shortest.

At Calgary, over a 36 year period, the average has been 81 days frost free, with 129 days in 1913 as the longest period and 58 days in 1912 as the shortest.

At Edmonton over a period of 33 years, the average has been 90 days with 118 days in 1906 as the longest period, and 52 days in 1918 as the shortest.

At Ranfurly over 16 years, the average has been 83 days with 118 days in 1919 as the longest period, and 38 days in 1917 as the shortest.

At Peace River over 17 years, the average has been 77 days with 125 days in 1919 as the longest period, and 14 days in 1914 as the shortest.

At Fort Vermilion, under the Arctic circle, over a 17 year period, the average has been 55 days, with 91 days in 1906 as the longest and 16 days in 1917 as the shortest period.

An Indian cave, hidden away many years from the white man's eyes, was recently discovered at Portobay Harbor, Malpe. The cave extends forty feet in under the hillside and can only be reached by a drop of fifteen feet over the ledge. The walls are covered with Indian characters, centuries old, it is said. A tangle of grape vines concealed the entrance.

C. O. D. MAIL SERVICE

Charges Up to \$100 May Be Collected
From Addressees and Remitted.

Announcement is made by the post office department that a C.O.D. service in connection with mail matter will become effective in the Dominion on October 1. The regulations under which the service will be operated are as follows:

On and after October 1, 1922, a C.O.D. service in connection with mail matter will be established within Canada, whereby charges due the sender, up to \$100 may be collected from the addressees and remitted to the sender by post office money order. The service will apply only in the case of mail matter posted at a money order post office for delivery at another money order post offices within Canada. Rural routes, starting from money order post offices are for this purpose considered as money order post offices and may be granted a C.O.D. service.

The C.O.D. fee also covers insur-

ance and registration.

In the event of the addressee having paid the charges due on a C.O.D. article, and after examination of the article, and after examination of the lie entered a premises run by one desires to hand the article back notorious "Red" Passalaqua, who and have money refunded, postmasters are instructed that such request in no wise be complied with. It is the duty of the delivering office to collect the amount due and remit it to the sender of the article, the announcement states, "and it may be explained in the circumstances above indicated that any objection to the goods received or desire for return of the money is entirely a matter of settlement between the addressee and the sender."

SPEED ! ! !

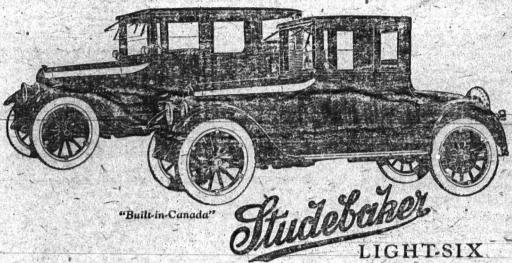

A few nights ago the provincial post office entered a premises run by one named Brocket in fourteen seconds. He returned to the scene of his operations inside of twelve hours. This constitutes a record for speed.

For Home Baking and Fresh Cakes go to The Palm Cafe, Blairmore. Orders also taken for any size wedding or birthday cakes. Agents for the Crows' Nest Bakery, Fernie, B.C.

INSURANCE

For Insurance of every kind, including
SICKNESS, ACCIDENT, LIFE, FIRE,
AUTOMOBILE, ETC.

See John Loughran, Superintendent, Blairmore. Until further notice, business will be handled and claims paid at Room 6, Alberta Hotel, Blairmore.

CLOSED CARS

Present prices are the lowest at which Studebaker Light-Six closed cars have ever been sold.

Yet the intrinsic values are emphatically the greatest Studebaker ever offered. This means they are the best values that the industry affords, because Studebaker cars have always been above par in the amount of value per dollar invested.

Capacity production and the savings resulting from Studebaker methods of complete manufacture make these low prices possible.

Light-Six closed cars are sturdily built of finest materials and best workmanship. The bodies are of the name they bear.

Studebaker skill and craftsmanship, and the prices of \$2225 for the Sedan and \$1775 for the Coupe-Roadster are no index to their inherent value.

When you buy a car you want to look at several makes. Include Studebaker in your list and after you have ridden in the Light-Six Sedan or Coupe-Roadster it will not be difficult to make up your mind.

The foundations of Studebaker success are quality, durability, comfort and integrity—principles that have been upheld steadfastly by Studebaker for seventy years. You can depend upon Studebaker automobiles because of the name they bear.

**COUPE-ROADSTER \$1775
SEDAN \$2225**

EQUIPMENT

The Studebaker Light-Six Coupe-Roadster has a wide open, dome light; leather and velvet plush upholstery; inside lighting; front door locks; front door lock on right-hand; front door silk roller curtains.

The Coupe-Roadster seat 4 passengers; ample space; upholstered rear deck for luggage; upholstered front deck; front door lock on right-hand; front door silk roller curtains.

Both models have V-8 smooth transmission lock; coil ventilator; side coach lamps; rain visors; individual wipers; eight day clock.

CROWS' NEST PASS MOTORS

Agents and Distributors for the Crows' Nest Pass, Blairmore.

THIS IS A STUDEBAKER YEAR

THE PASS THIRTEEN YEARS AGO LAWN SOCIAL A HUGE SUCCESS LENDING MONEY TO BOYS AND GIRLS

(From Frank Paper, January, 1908.)

The first village election under the new law providing a new form of government for villages, will be held in Frank on January the 12th. Overseer J. H. Farmer has been appointed returning officer and has issued a call for nominations. Possible candidates include: A. V. Lang, Reuben Steeves, Jake Whiller, Harvey Murphy, W. J. McGowan, Al. Manuel and C. D. McMeekin. It is presumed that Overseer Farmer will not be a candidate.

The C. P. R. has rescinded the order issued over a year ago, refusing to permit its cars being loaded with coal from Pass mines for United States destinations.

J. Baker, of Macleod, has been appointed local manager of the government telephone interests for the Crows' Nest Pass district. The construction gang has the messenger wire between Frank and Blairmore in readiness for the stretching of the cable. Wires are also being extended to Bellevue, Hillcrest and Lille.

Arrangements are complete for the operating of a light plant to serve Frank and Blairmore. The rates have been fixed at \$1.00 per month for a single sixteen-candle power light, 90 cents each for from one to three lights, and eighty cents a month for any number from three to fifty lights. A. I. Thomas has been engaged at a salary of \$150 a month to run the plant, and J. F. Davidson at a salary of \$25 per month to keep the books and do the collecting. A managing committee is composed of R. Steeves, J. H. Farmer and W. A. Beebe.

A. Brown, a high-class tonsorial artist, has taken a position at Joe Furman's barbershop.

The holiday vacation comes to an end this week, and school will open again next Monday with Professor Huston and Miss Berry in charge.

Next Monday evening is the date set for the regular meeting of the board of trade, but owing to the nominal meeting it has been postponed to the following Monday.

The Order of Owls was organized on Saturday evening by Alex. McCool. The following officers were elected and installed: J. McDonald, president; Joe Barber, vice-president; Frank Scott, invocator; E. Lukehart, secretary; L. W. Kibbs, treasurer; Archie McDonald, sentinels; L. T. McVigh, past president. The new lodge starts out with a membership of 150.

The high wind of the early part of the week wrecked the coal handling plant of the Galbraith Coal Co. at Lundbreck.

A WEEK LATER

The candidates nominated for Frank village council were Jake Whiller, R. Steeves, Alex. Goyette, A. V. Lang, L. Mare, George Cobley and Dr. MacLennan. At Blairmore rivalry was keen, and the following were nominated: H. E. Lyon, Thomas Frazer, Louis Dutil, A. McDonald, T. Ede, J. E. Boyle, Joe Little and E. Morino. At Coleman the following were elected by acclamation: Alex. Cameron, Frank Graham and E. Holmes.

Way freight is now carried by a train known as an extra, running between Lethbridge and Crows' Nest. The running time of passenger trains is: Westbound: passenger arrives at Frank at 7:02 a.m., eastbound 9:25 p.m. Westbound local or mixed train 11:08 a.m., eastbound 12 noon.

Sergt. Haslett and bride, Mrs. McArthur, have returned from their wedding trip through British Columbia.

The cement company are getting ahead with their buildings at Blairmore.

The home of Percy Clearihue was gladdened on Monday morning by the arrival of a baby girl.

John Torrance, representing the new Lethbridge daily paper, The Herald, visited The Pass during the

lawn social given by the ladies of St. Anne's congregation on the beautiful lawns surrounding the Charbonnier mansion yesterday afternoon and evening was well attended and a result of the affair a sum of money was realized for the church.

The windstorm during the afternoon prevented quite a number of folks from attending, but at night the ladies were kept busy serving refreshments. Dancing was indulged in until a late hour in the ballroom which was delightfully bright and airy.

The ladies desire to thank all who assisted and feel particularly grateful to Mr. J. Charbonnier for his kindness in granting the use of his lawn, residence and ballroom for the occasion.

PALM CAFE TO HAVE FINE NEW QUARTERS

We understand that the building being erected next to the P. Burns block by E. J. Pozzi, is to be occupied by the Palm Cafe as a restaurant and that a long lease has been entered into.

The present building is about 25 by 70 feet, and an addition of kitchen, etc. will be erected at the rear.

When completed the new Palm Cafe will be one of the largest and most up-to-date restaurants in Southern Alberta.

W. M. Bennett, of Burns, has been appointed game guardian.

It is stated that the late Lord Northcliffe left an estate valued at seven million sterling.

Janes Evans, a member of the Co-ops football team, met with an accident in the mine a few days ago.

The Ladies' Sewing Circle of the Union church will meet at the church on Wednesday evening next at 7:30.

True, Nova Scotia, is to have a modern rink, size 217 x 94 feet.

In the summer, it is planned to use the building for fairs and shows.

Wi! We entered a local Chinese restaurant the other day and ordered something to be charged to the church. The witty young Chinaman immediately remarked: "No, not ch' u h, but the Turkish government!"

The survey of the townsite of McNab, named after C. D. McNab, is now in progress and includes provision for a park, hospital, golf and sports club sites. At Elkton, on the Elk river, hydro-electric development is now under way to tap the immense waterpower resources there for industrial purposes, and at McNaib men are at work clearing the site of the big pulp and paper mill the Wigwam company intend to start.

A solemn Requiem Anniversary High Mass was celebrated at St. Anne's church on Monday morning at 8:30 at which the pastor, Rev. Father Pilon, O. M. I., of Pincher Creek, deacon, Rev. Father McCormick, of Coleman, sub-deacon, and Master A. Tibb, master of ceremonies. The choir attended in full force and beautiful music was rendered.

week.

School reopened on Monday with Principal Huston and Miss Berry in charge. Professor Huston was tendered a farewell function at Lundbreck in the form of a smoker, at which the people of Lundbreck gave expression to their regret at losing his services. It was a most flattering testimonial of the good will and esteem in which Mr. Huston is held.

The youngest daughter of Mr. and Mrs. James Paden died at Bellevue on Sunday morning at the age of nine following a week's suffering from appendicitis. The body was taken to Michel for burial.

ALSO Five Roomed House, good condition. Terms. Apply to J. B. Harmer.

21-22c

Through the solicitations of A. Kennedy, Inspector of Schools for the Weyburn School District in Saskatchewan, a number of Canadian banks have agreed to undertake loans, without security or exaction, to members of the Boys' and Girls' Clubs, who wish to purchase or raise thoroughbred stock or poultry. Already, according to Mr. Kennedy, there are over 4,000 branches of these banks ready to assist young people in this movement, which is intended to stimulate mixed farming in the West and offset the tendency of growing wheat on all lands under cultivation.

In Saskatchewan alone, there are over 300 of these Boys' and Girls' Clubs encouraging the care and study of good live stock and poultry farming.

The movement began in 1916, when 10 Rural Education Associations were organized in the Weyburn Inspectorate, the unit or organization being the rural municipality—18 miles square and corresponding to the township in all phases of administration.

Each Rural Education Association had charge of three phases of work: the school exhibition for the child in school, in which prizes to the amount of \$200 were offered; the Boys' and Girls' Clubs for youths on the farm over 13 years of age and under 18, prizes of \$300 being offered, and sports, in which \$75 was offered in prizes.

Among the first interested in the Boys' and Girls' Clubs was J. A. McBride, a prominent grain dealer, who gave an annual grant of \$100 for prizes for raising and feeding swine.

The members of the clubs signed contract forms binding them to follow the rules of the contest. Three judgings were held, the first in May, when the possible number of points was 50; the second about August 1, when 75 points might be obtained, and the third about October 1, when the possible number of points was 100.

In addition a possible 75 points was allowed for a complete record of the animals entered.

In March, 1916, Mr. Kennedy approached the Canadian Bank of Commerce, the Weyburn Security Bank, the Royal Bank and the Home Bank in the matter of financing the club members, who were too poor to be able to purchase young animals.

These banks agreed to loan money to the club members on their notes without security and without endorsement.

The war and other conditions slowed the movement down somewhat, but in 1919 Mr. Kennedy received a letter from J. S. Hian, superintendent of branches of the Union Bank, in which the latter intimated that that bank would be glad to render financial assistance along the lines of other banks, and that all branch managers had been instructed to take an active interest in the clubs.

The clubs grew so strong that the Department of Education of Saskatchewan appointed a Director of Rural Education Associations to take charge of the work. The exhibition of live stock, poultry, etc., was organized under this director and arrangements made to have judges in each district.

A few days ago Mr. Kennedy received a letter from C. H. Easton, general manager of the Standard Bank, announcing that the loan scheme had met with favor and praise.

The choir attended in full force and beautiful music was rendered.

Negotiations are at present under way with the Bank of Montreal, the Bank of Nova Scotia and the Dominion Bank.

Mr. Kennedy said that there have been cases where young people, who had joined one of the clubs had been so successful in stock raising that they had saved the family farm and were rapidly becoming experts.

Express Rate on Cream

Rate of Three Gallon Cans Allowed to Alberta Dairymen

Favoring the establishment of an express rate on three gallon cans of cream that would be lower than the rate on five gallon cans, the Board of Railway Commissioners for Canada allowed the representatives of the Alberta Dairymen's Association and the express companies one month's time in which to arrive at some suitable arrangement. Failing to reach a satisfactory agreement, the Railway Commission will form a tariff.

The Alberta Dairymen's Association was represented by A. Chard, traffic superintendent of the Provincial Government, who, in giving his evidence, stated that owing to the recent legislation passed by the Provincial Government, it was essential to establish a rate on three gallon cans of cream if the smaller producers of cream were not to be penalized.

Application of the Alberta Fish Company, Limited, for a reduction in the express rate on fish from Edmonton and points north to the same rate as for fish shipped from Vancouver, was made to the commission, but the chairman reserved judgment until he had conferred with the other members of the board.

W. S. Campbell, who represented the Alberta Fish Company, stated that the charges for shipping fish from Edmonton and points north to Chicago was 25 per cent higher than for fish shipped from the coast, although the distance from the coast was from 600 to 800 miles farther.

Junior Red Cross

Splendid Work Carried on by Junior Organization in Saskatchewan

Over 1,000 children in Saskatchewan—1,010 to be exact—who are crippled or suffering from some defect requiring the services of a specialist, and whose parents were financially unable to make necessary provision for their treatment, have been reported to the Junior Red Cross, and treatment provided for the vast majority of these cases out of the Junior Red Cross Fund for Crippled Children.

The tangible evidence of the splendid work being carried on by the Red Cross in Saskatchewan was reported to a meeting of the Junior Red Cross Committee held at Regina a few days ago.

During the past twelve months cases calling for treatment have been reported on an average of more than two a day. They have been cared for at the Sanatorium at Port Qu'Appelle and in hospitals all over the province. At one time recently every child born in the children's ward of a Saskatchewan hospital was a Junior Red Cross patient, and there are always a number of such patients there and in the Alexandra Club ward of Regina General Hospital, and in the J.O.D.E. Children's Pavilion at the Sanatorium.

Not there included in this number, large as it is, are the many children who have received dental treatment in rural schools from the two traveling Junior Red Cross dental cars. The number of children receiving dental treatment up to August 31 last was 2,390, while the number of fillings, extractions, etc., totalled 5,105. According to the dental statistics of the J.R.C. the dentists numbered 161, at which over 5,000 children were present.

During the twelve months ending August 31 the Junior Red Cross Committee expended \$20,000 in this work. Another \$10,000 has been paid to the Sanatorium, which is the only one in Saskatchewan. The dental work is carried on by the dental students of the University of Saskatchewan. The dental students are the Junior Red Cross dental car drivers.

An interesting phase of Junior Red Cross work for children has been the holding of clinics at isolated points where investigations by school nurses had disclosed numbers of children requiring operations for the removal of cataracts, which is the leading cause of blindness in children.

Such clinics were organized by the Junior Red Cross between June 1 and August 31, and were held at Torquay, Quimper, Gladmar, Green Lawn and Tarnapow.

In all 132 children were successfully operated on. So successfully indeed has this new department proven to be that similar clinics have been organized in school districts and municipalities.

For each clinic the Junior Red Cross has provided a dental unit, and a dental car.

Each clinic has been conducted by the Junior Red Cross between June 1 and August 31, and were held at Torquay, Quimper, Gladmar, Green Lawn and Tarnapow.

In this old world more feelings are hurt by bad manners than by bad intentions.

Six hundred and seventy two pupils are now attending the Trail public school.

If your wife finds poker chips in your pocket, tell her they are a new kind of milk-bottle tops.

Ross Powell, principal of the Coleman school, attended the school fair at Pincher Creek last week.

Eddie Thibodeau has accepted the position of junior-clerk at the local branch of the Home Bank of Canada.

The Knapman Plumbing & Heating Co. has been awarded the contract for plumbing and heating the new community building at Bellevue.

It's a pleasure to us to give space to a birth announcement; so if you have one every week, don't be afraid to call us up and give us the news item:

We understand that Miss Hilda Eddy, daughter of Mr. and Mrs. W. T. Eddy, who recently underwent an operation for appendicitis at Calgary, is fast mending.

Mistaken enthusiasm is the kind shown by the clergyman who sits up all night over a sermon that will put his congregation to sleep the next day.—Cleveland Commercial.

The following is copied from the Claresholm Review of last week: "Nell Walker, female hobo, hailing from Boston, was in town on Tuesday. She is dead-beating her way around the world."

Woman, lovely woman—she will live longer than an undeserving mate than any known animal; she will forgive oftener than an angel; she will make herself ridiculous if she thinks it attractive; she will go to a lot of trouble to get a four-dollar article for \$3.98; but she will never forgive her husband if he is polite to another woman.

A man who had just opened a store in a strange town was interrogating the purpling power of the citizens. "Now, there's Devon Brown," he said. "He has the reputation of being wealthy. Would he be likely to spend his money in here?" "Wa-ah," drawled the native, reflectively, "I wouldn't exactly say that he'd go to hell for a nickel, but he'd fish around for one till he fell in."—Exchange.

The new stores and apartments in West Blairmore were turned over by the contractors this week and present one of the most attractive buildings in Blairmore. The stores, which are large and suited for departmental purposes, will likely be occupied by the F. M. Thompson Co. The four three room apartments overhead are well-appointed and cosy and we understand all engaged. The plumbing was done by the Knapman Plumbing & Heating Co.

Steamship patrons will receive with pleasure the announcement that the Canadian Pacific Railway intends to operate a special train consisting of coaches, tourist and standard sleeping cars and dining car from Winnipeg to West St. John, N. B., direct to ship's side, for the Christmas sailing of the new and popular Monoclass S. S. "Monteal," sailing from St. John, December 12th. Special train will leave Winnipeg at 9:20 a.m. Wednesday, December 9th, direct to ship's side. Special tourist cars will operate from Regina, Moose Jaw, Calgary, Edmonton, and Vancouver to connect with this at Winnipeg.

Don't forget the demonstration of Electric Range next week at Blairmore Hardware Co's.

Rev. Father Cormier is spending a few days in Calgary this week.

The front of the Eds Block is this week treated to a coat of paint.

Architect Besseve, of Burrell & Besseve, Calgary, was in town during the week.

W. Shaw, district-manager for P. Burns & Co., was in Blairmore on Monday last.

R. B. Angus, director of the G. P. R. and the Bank of Montreal, died at his home in Montreal on Sunday night, following an illness of some weeks.

To keep your hobby out of mischief, have him move the basement woodpile daily. This method has been tried to a 'tally, and honest it works well.

M. Boleky paid a business visit to Calgary in the early part of the week. He was accompanied by his brother, P. Boleky, of Fernie, who has been seriously ill and was obliged to go under a critical operation, which was performed on Tuesday morning.

New screens for the Orpheum theatre were placed in position during the week and together with the wings are quite attractive. The main curtain is very artistically painted and displays advertisements for a number of our leading business institutions.

The Irish parliament opened on the 9th instant in Dublin, and all was quiet, except for the expulsion of Laurence Ginnell, who alone of the DeValera party attended. He refused to sign the roll and was carried out of the house by attendants.

George Patterson, formerly of the Frank Lime Works, Frank has accepted a position with the Coleman Hardware, succeeding Mr. Rushton, who has taken charge of the hardware department in J. Michalsky's store. Mr. Patterson, has spent a number of years in The Pass, taking an active part in Masonic and Odd Fellows work as well as being interested in industrial developments in this part of the country, and his many friends here will be pleased to know that he has decided to locate at Coleman.—Coleman Journal.

A number of local golfers joined in at Pincher Creek on Sunday last to engage in a tournament. The best score was made by Mr. MacKenzie, while Mrs. MacKenzie won the ladies' handicap competition. Mrs. Bird and Mrs. Rhynas came first and second in the mixed foursomes.

TO AUTO OWNERS—As an inducement to have the auto owners of this district try out our new overhead measuring gas pump, we will sell gas at 50¢ net cash per gallon on Saturday and Sunday next. Also Polarine motor oil at 35¢ per quart. We will also allow ten per cent. discount on all new tires and tubes and all accessories we have in the shop for the two days mentioned.—BLAIRMORE VULCANIZING & BATTERY STATION, Victoria Street East.

Bill says: "The way to improve business is to hustle for more."

The acreage of the west under crop this year has increased almost sixty per cent.

Miss Marion Dobbins, of Pincher Creek, is on the teaching staff at Hillcrest public school.

A German firm has applied for a patent on a clock which is to be corrected, set and wound by radio.

It is conservatively estimated that Alberta's wheat crop this year will amount to 69,227,000 bushels.

News comes from Europe that birds are affected by radio waves, which cause them to lose their sense of direction.

Messrs. W. W. Scott and L. Duill attended the convention of Southern Alberta retail merchants, held at Lethbridge last week.

Twenty one new companies were incorporated in the State of New York in June to engage in radio business, with a combined capital of \$1,030,000.

Looking after a husband is like playing a game of cards. You must play with what is dealt you, and the glory consists not so much in the winning as in playing a poor hand well.

September the 13th was somewhat of an unlucky day at Bellevue mine, when several accidents occurred. The most serious happened to James Alsupp, who had his arm badly cut and some bones broken.

Since the outbreak of hostilities over in Europe, Count Rinaldi has been confined to his summer palace near Greenhill. It is not known yet what steps he will take, but horses are being trained for scouting.

Thanksgiving Day this year will be November the 6th. The date was fixed by parliament at the 1921 session, being designed to fall on the Monday of the week containing Armistice Day, which is November 11th.

The beautiful home of T. Label at Pincher Creek has been acquired by the Sisterhood of Gray Nuns, to be converted into a district hospital. A short time ago the municipal hospital proposition was voted down by the district.

Drive out of your mind any things that worry you before you go to bed. If you cannot sleep at first breathe deeply and slowly, take a lukewarm bath, or drink a glass of warm milk. These things will rest you and often make you sleep.

If you have been sitting in an office all day, your brain is tired when you stop. Your body needs exercise to make your brain forget the work. Any bodily work, like walking home, sawing wood, or shoveling snow, or throwing a baseball, or wrestling or boxing, will do you good.

Following the unveiling of the War Memorial by Lord Byng at Red Deer on September the 15th, a public reception was tendered. On the platform with Lord and Lady Byng, Lady Boscowen, Mayor Collinson and Premier Greenfield, was Rev. Capt. W. H. Muncaster, well known to local friends.

The mail order buyer says he has the right to spend his money anywhere he pleases, and he has, legally. But he probably has never stopped to reflect on the fact that he is supplying the capital for the operation of a concern which is in direct competition with enterprises in which he is directly interested, for every man, woman and child in a town is directly interested in the success of the business enterprises in that town. If these business enterprises are not prosperous the town cannot be prosperous. To supply capital to your competitor is not good business.

It takes the last part of a year to turn out a first-class tennis racket.

FOR SALE—A limited number of geese, in good condition. Apply to Mr. E. Kidd, State Street, Blairmore.

Perhaps, the reason why the Real Merchants attacked the bootleggers recently was that the latter did not supply the convention with the necessary refreshments.

Pete Ubertino, the popular proprietor of the Orpheum theatre, is busy these days dragging his right leg behind him. He says he suffers so much in his right leg that it really isn't a right leg any more.

It is curious, but true, that in civic administration the man who converts a wilderness into a garden suffers an increase of taxation for his pains, but when he converts a garden into a wilderness his taxes are lowered.

Gus Becken, a real old-timer and former bartender in this district, was looking up old pals this week. Although Gus looks half and hearty and about ten years younger than he used to, his hair has not darkened one iota. Gus says there'll be a bright spot in heaven when he arrives there.

Raoul Green, of the West Canadian Collieries, is absent in the east, where, rumor has it, he has taken up himself a better half. Mr. and Mrs. Green are expected to return in about a week and will reside in Blairmore, where Mr. Green assumes the position of assistant to the general manager.

—The Frank Paper, January, 1923.

The Lethbridge school board will not permit jazz dancing at the high school. They expect to be termed "old and out of date," and "flat-tires" and "mean things," etc., but they have taken a positive stand on the subject. Personally we think they are right.

Dr. F. W. Patterson, general secretary of the Baptist Union of Western Canada, and editor of the Baptist Outlook, with headquarters at Winnipeg, has accepted the presidency of Acadia University in Nova Scotia, to take over the new duties at the end of the second term, February the 1st, 1923.
